SUMPO

**Learn.
Make.
Innovate.**

The JDSymposium, now in its 10th edition, is an immersive journey into the technological evolution of implantology. Learn. Make. Innovate. are the pillars of this annual event that allows professionals around the world to learn and experience innovative protocols to improve their daily practice.

Innovation requires energy, courage and vision to push the boundaries and change the old paradigms. JDentalCare is committed to face these challenges every day to develop innovations in the field of implantology.

**Innovations
Change
Everything**

DID YOU KNOW THAT?

Modern implantology was born in Italy thanks to a dentist from Modena. In 1947 Dr. Manlio Formiggini was among the first to adopt the technique of direct endoalveolar infibulation of spiral hollow screws, leading the way for today's implant techniques.

JDSYMPOSIUM 2024

3-DAY CONGRESS

20TH JUNE
